GLOBAL-SSE VIDEO OPEN CALL

Global Videos about solidarity initiatives and the Social and Solidarity Economy (SSE)

Do you promote or take part in solidarity initiatives and/or Social and Solidarity Economy actions?

The Global Social Economy Forum (GSEF) is a global network with presence in 5 continents that aims to serve as a hub for sharing visions and experiences through cross-border collaboration and cooperation in order to build a more inclusive, equitable, and human centered world. The last Forum, GSEF2018, gathered more than 70 countries and 300 cities; to learn more, visit: www.gsef2021.org.

Next year, Mexico City will host the GSEF2021. As part of the preparatory work, in October 2020, the Virtual Forum will take place, a space to link perspectives about the challenges and actions that, from the Social and Solidarity Economy (SSE) could kick off better scenarios (present and future) in a local and global level, specially in the current circumstances.

In this framework, GSEF2021 calls everybody to join the global exchange about the Social and Solidarity Economy. We are looking to get to know, spread and promote experiences in the next categories:

a) **Solidarity initiatives.** Talk about your experience being part of a group of people, as agents of change, for example: friends, neighbors or members of a neighborhood, that organizes in order to solve any necessity or problem that you face in your community, such as environmental issues, mutual help, cultural matters, supporting vulnerable groups, sharing knowledge and skills with acquaintances, among others.

b) **SSE actions.** Share with us the way your organization, institution, association, group, cooperative, mutuality, project, community and solidarity group
encourage actions, strategies or simply promote the principles, values and practices of the SSE.

c) Living the SSE. Tell us about your experience, what benefits has the SSE brought to your life? How has being part of a mutuality, worker cooperative, solidarity and community enterprise, ejido or other SSE organization form, benefited you and/or your community? How has a cooperative, the products and services of the Social Banking or an SSE project, contributed in your daily life?
