The Global Virtual Forum (GSEF) | Great Challenges, Greater Solidarity: Power of Community and SSE as a Path of Transformation

The Global Social Economy Forum GSEF is an international network that brings together local governments and civil society stakeholders committed to supporting the development of the Social Economy (SE). GSEF aims to serve as a hub for sharing visions and experiences through cross-border collaboration and cooperation based on multilateral partnerships for an inclusive, equitable and human centered world for all of us.

How to register online:

All Zoom links to each session will be sent to the email address of those who registered. Here is the registration link (<https://difusion.inaes.gob.mx/GSEF/RumboGSEF04/RegistroEN.aspx>) in.

If you have no time to register, don't worry.

All Zoom links of each session will be posted on GSEF's Facebook (<https://www.facebook.com/gsefofficial>) page at least 2 hours prior the start of the session.

You can also find all the additional information of each session here (<https://www.gsef-net.org/en/node/27672>).

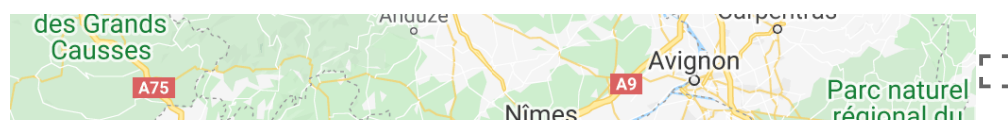

Social and Solidarity Economy for sustainable, inclusive development and Wellbeing

GSEF2020, as the **first Global Social Economy Forum taking place in Latin America**, will illustrate the long history and great cultural diversity in the region. The 5th GSEF Forum will showcase creative ideas and visions, highlight practical proposals, and provide collaboration opportunities on how Social and Solidarity Economy can contribute to building inclusive and sustainable societies for everyone as a response to the current important momentum of political and social changes arising globally, as it is the case in Mexico.

The **objectives of GSEF2020** are:

- To provide opportunities for the exchange of experiences and knowledge among SSE actors from all around the world, with emphasis on Mexico and other Latin American countries, without excluding other countries and regions - with the purpose of presenting, analyzing and discussing relevant experiences and success stories regarding social and solidarity economy in today's world;
- To support the creation of SSE networks through alliances among local, federal and national governments and SSE entities and networks;
- To promote solidarity and cooperation in order to improve the environment, foster sustainable economic development and generation of quality jobs, as well as encourage the empowerment of young people and promote the rights of women and indigenous peoples and communities
